

# ARCHITECTURE & ENGINEERING

Architecture Design & Engineering Services are what helped put NOVACOM on the map in the Telecommunications Industry! Our experienced staff of Engineers, Project Managers, Planners and CAD Designers, have what it takes to help you design your projects quickly and cost effectively.

## Services

The Architecture & Engineering Services Department of NOVACOM provides all drawings and construction documentation needed to build your sites. We don't stop there, with our experienced team of planners and permit expeditors we have the ability to ensure the success of your project by seeing it all the way thru the various jurisdictions and regional authorities.

## Our Team

Our Engineers are some of the best in the business, each of which have a minimum of ten years experience in the industry and have worked for virtually all of the carriers in numerous markets stretching from Southern California to New York. We are licensed in several States. We are here to service you the client, whether it be on-site to develop strategic designs or in your office to review plans. Bottom line NOVACOM is here to help you build your network.

This Information sheet describes only some of the services NOVACOM can perform. For further information about NOVACOM and its services, please contact:
